Quality of Life Cleaning

This map shows all of the feces removed by The East Cut cleaning team. The areas in red require more clean-up.

infogram

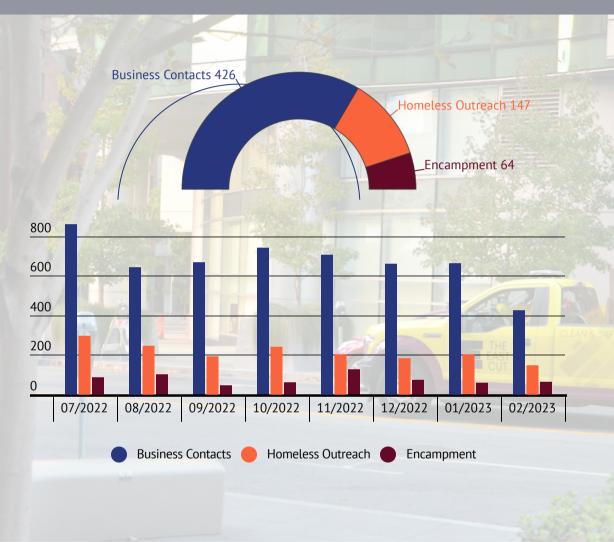

Overnight Safety

The Services team has repainted the pedestrian island at the Beale and Howard St intersection, which will serve as a measure to prevent vehicles from colliding with it.

infogram

Hospitality

In the district, the number of encampments has slightly decreased to an average of 17 per day. The East Cut services team has informed that most of these encampments are dismantled before the afternoon. Encampments that exist for an extended period are regularly provided welfare checks and monitored to ensure there is a clear path of travel, and individuals are continuously asked if they require shelter.

The reduction in business contacts can be attributed to the overnight safety team focusing their resources on The Crossing, which limits their interactions with front desk staff during the night.

Dispatch

Before & After

The East Cut Services team strictly prohibits graffiti within the district, regardless of whether it is on public or private property.

Before & After

At 580 Howard St., the East Cut Services team removed large pile debris early in the morning.

The team is ensuring that all storm drains within the district are clear of debris. This proactive measure aims to prevent flooding.
