

Operations Report

June 2026

Prepared by: Block by Block
for The East Cut Community Benefit District

Highlights

Trash

8,700
lbs. of trash

43,700
lbs.YTD

Team Highlights

The Services team's primary goal is to keep the district clean and safe, which includes looking out for the well being of everyone in the area. The team encountered an adult male lying shirtless on the sidewalk who stated that he was very cold and wanted shelter. The team remained with the individual until the San Francisco Fire Department arrived and was able to assist and transport him to receive appropriate care.

Quality of Life Cleaning

Zones Pressure Washed

The Safety Team continues to conduct routine business check-ins throughout the district, strengthening relationships with local workers and reinforcing that support is readily available when needed. In addition to business outreach, the team proactively patrols poorly lit areas throughout the district, including areas such as the North and South Beale Stairs, to help ensure public spaces remain clear, visible, and safe. The team also conducts routine welfare checks on individuals throughout the district and contacts the appropriate authorities or medical services when someone appears to be in need of medical attention or additional assistance. Team members remain alert and observant during their shifts, prepared to report and respond promptly to incidents, safety concerns, and quality-of-life issues impacting the district.

Hospitality

This map highlights our team's outreach efforts to unhoused individuals within the district. The red-marked areas on the heat map indicate the primary locations where outreach activities are being conducted.

Before & After

A large pile of scattered trash was found on the sidewalk at the corner of Fremont and Folsom. The team responded quickly, clearing the area to restore safe pedestrian access and maintain a clean pathway for commuters and customers visiting nearby businesses, including Bluestone Lane and Starbucks

Graffiti tags on the green electrical boxes do not last long in the district due to the team's proactive efforts to quickly identify and remove graffiti, helping maintain a clean and graffiti free district
